Epoxy Sets

Epoxy Sets

Epoxy Sets

DESCRIPTION :

Epoxy sets consists of 3 components – paint buckets of smaller size, oil bottles and strips for epoxy grouts. We provide paint buckets of virgin quality with no mixing to maintain safe storage of either epoxy powder packed in plastic polyethylene bags or directly the powder or the oil bottles kept inside for storage. Although now, epoxy sets are sold in loose packaging, paint buckets still hold their position as a good presentation in market by good quality epoxy manufacturers. Moreover, paint buckets also do have printing which creates branding of the company. We also provide oil bottles made of pure virgin granules with high level of strength to bear the transport with no breakage or spillage. We supply bottles of various sizes such as 100 ml, 250 ml, 500 ml, & 1000 ml suitable to fill necessary epoxy powder, liquid and which can comfortably fit in the paint buckets of 1 litre, 2 litres, 4 litres & 5 litres. We also supply strips for epoxy grout which is normally used for sampling manufacturer's epoxy material which will bear the shine and clear color shade. Our strips are made out of pure virgin quality and are available in colors such as grey, natural white and milky white. Overall our company is a one stop solution for obtaining complete epoxy set in bulk or in small quantities. We offer same level of service, reliability and support to all our customers - be it a corporate or an SME.

FEATURES :

- Virgin material
- High level of strength & sturdiness
